

# PETRONI

Syrah  
Estate Grown

An organic grape-growing philosophy with minimal intervention in the cellar and a faith in Sonoma Valley as a premium winegrowing region is the driving force behind Petroni Vineyards. The grapes for the Petroni Syrah are grown in two separate Estate vineyards: one vineyard gives the wine subtle richness and depth while the other adds power, complexity, and spice. To preserve the richness, the finished wine was neither fined nor filtered. Elegantly perfumed with red berry and Rhone-like characters of licorice, spice and earth. The palate is complex, savory with concentrated fruit and packed with fine tannins. The aromas extend on to the palate with fresh acidity, a long lasting finish and an old world rusticity.
